

CREATING IBM NODE-RED SERVICE

Date	06 NOVEMBER 2022
Team ID	PNT2022TMID42266
Project Name	Signs with smart connectivity for better road safety

The screenshot shows the IBM Node-RED web interface in a browser. The browser's address bar displays the URL: `node-red-wmmz-2022-11-05.eu-gb.mybluemix.net/red/#flow/de88c764b752d2e8`. The interface includes a top navigation bar with a 'Deploy' button and a hamburger menu. On the left, a sidebar lists various nodes under 'common' (inject, debug, complete, catch, status, link in, link call, link out, comment) and 'function'. The main workspace, titled 'Flow 1', contains a flow with two nodes: a blue 'inject' node with the text 'Hello Node-RED!' and a green 'msg.payload' node. On the right, a sidebar shows the 'info' panel with a search bar and a list of flows, including 'Flow 1' with ID 'de88c764b752d2e8'. At the bottom of the browser window, a PDF document titled '710019106030_lb...pdf' is open, and a 'Show all' button is visible.
