

CREATING IBM WATSON IOT PLATFOR

Date	05 NOVEMBER 2022
Team ID	PNT2022TMID42266
Project Name	Signs with Smart Connectivity for Better Road Safety

The screenshot shows the IBM Watson IoT Platform dashboard. The URL in the address bar is `vRPC8B.internetofthings.ibmcloud.com/dashboard/devices/browse`. The main title is "IBM Watson IoT Platform". Below it, there's a navigation bar with "Browse", "Action", "Device Types", and "Interfaces". On the right, there's a blue button labeled "Add Device" with a plus sign. The central area is titled "Browse Devices" and has tabs for "All Devices" (which is selected) and "Diagnose". A search bar at the top says "Search by Device ID". Below the search bar is a table with the following data:

	Device ID	Status	Device Type	Class ID	Date Added
>	123456	Disconnected	Ecedevice	Device	Nov 3, 2022 8:30 PM

Below the table, it says "Items per page 50" and "1–1 of 1 item". At the bottom of the table, there are navigation buttons for "1 of 1 page", "1", and "2". To the right of the table, there's a "Device Simulator" toggle switch which is turned off. At the very bottom of the screen, there's a Windows taskbar with various icons and system status information.
